

ROLLEI RLC LOW CONTRAST

Rollei RLC Low Contrast is a special developer for technical films with very steep gradation. Based on developing time, these films can be used through bending of gradation, for normal photographic purposes. RLC provides negatives with a very fine grain structure, extremely high edge sharpness and an excellent tonal range.

Dilution 1 + 4 :

208 ml dest. water + 52ml RLC = 260 ml solution

Temp.: above 20°C / 68°F

HINT | Developing times of technical films must be tested and figured for individual taste. The basic time figure is 6 minutes for a middle gradation. Any time extension, increases the usable sensitivity, and will increase contrast.

AVAILABLE SIZES

500 ml

Noxious | Contains Hydroquinone Irritating to eyes. Limited evidence of a carcinogenic effect. May cause sensitisation by skin contact. Possible risk of irreversible effects. **Keep out of the reach of children.** In case of contact with eyes rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing and gloves. If swallowed seek medical advice immediately and show this container or label.
