

# ROLLEI RPW PRINT WARMTONE

Rollei RPW Print Warmtone is a high-performance warmtone developer for all black and white RC coated and fiber based papers. A neutral to warm black image tone is achieved with silver bromide papers, and a warm black tone is achieved with silver chloride papers. Suitable for both trays and machine development. RPW delivers deep blacks with very low fogging values at the same time, it is very productive and extremely stable.
